

# ChatAssist AI — Release Notes (v1.2)

---

**Release Date:** 07 Nov 2025

## New Features

- Introduced multi-turn conversation tracking.
- Added tone selection for responses: friendly, professional, concise.

## Improvements

- Improved accuracy for technical support queries by 12%.
- Enhanced filtering for biased or inappropriate content.

## Bug Fixes

- Fixed issue where API occasionally returned truncated responses.
- Corrected grammar inconsistencies in generated text.

## Known Issues

- Limited understanding of sarcasm and humour.
- Response time slightly longer for large text prompts.
