

# Leslie Writes — Portfolio Launch Checklist

---

## ■ A. Visual Design Check

- Branding & Theme — Ensure colour palette and fonts are consistent.
- Layout — Verify page structure and spacing.
- Images — All images display correctly with alt text.
- Mobile View — Test responsive layout on phones and tablets.

## ■■ B. Functional Check

- Navigation — All internal links (Home, About, Portfolio, Blog, Contact) work.
- Buttons — Test hover states and click actions.
- Blog — Ensure all posts display and RSS feed is valid.
- PDFs — Check all downloads open correctly.

## ■ C. Technical Check

- File Structure — Confirm files follow standard hierarchy.
- Metadata — Add title, description, and viewport tags.
- Performance — Compress images and test with PageSpeed.
- Accessibility — Use proper headings and text contrast.

## ■ D. Deployment Check

- GitHub Pages — Site loads from public repo.
- DNS — Add CNAME for [lesliewrites.tech](http://lesliewrites.tech).
- Final Validation — Run broken link and HTML
