

TO WHOM IT MAY CONCERN

I am delighted to provide this letter of recommendation for **Leslie Hekachi Amadi**, who worked as a Technical Writer at **GC Software Development GmbH** from 2022 until 2026.

We hereby confirm that **GC Software Development GmbH** during this time was acting as a contractual partner of **Booming Games (Malta) Limited** for the development and supply of software.

Throughout her time with us, Leslie consistently demonstrated professionalism, strong organizational skills, attention to detail, and expertise in documentation management and process standardization. She played a key role in improving the quality, structure, and governance of our documentation landscape, helping establish standards that enhanced knowledge sharing, process consistency, and operational efficiency across multiple departments.

Some of Leslie's key contributions included:

- Managing and governing a documentation estate of more than 400 knowledge assets across multiple business areas.
- Standardizing documentation across major Confluence spaces, including Operations, Incident Management, Compliance, Product/GCS, Technical, and BTC.
- Developing and implementing documentation frameworks and templates, including the BG Global Documentation Template, Process Documentation Template, Technical Documentation Template, Incident Report Template, Onboarding and Offboarding Templates, and several business-critical process documents.
- Successfully completing the restructuring of the Incident Management documentation space and significantly improving the organization and usability of Operations documentation.
- Identifying documentation gaps and proactively proposing improvements, including the development of a Compliance Documentation Template framework and initiatives to align documentation standards across teams.

Leslie's greatest strengths are her initiative, documentation expertise, and communication skills. She consistently identified opportunities for improvement and proposed solutions supported by well-reasoned business cases rather than waiting for direction. Her documentation work was always structured, thorough, and of a high standard, contributing to greater consistency across teams and knowledge repositories. In addition, she maintained excellent visibility over her work, providing clear updates on progress, priorities, and potential blockers, which made collaboration and planning highly effective.

Beyond her technical expertise, Leslie conducted herself with integrity, professionalism, and a positive attitude in all interactions. She was a valued member of the team whose contributions had a meaningful and lasting impact on our documentation standards and knowledge management practices.

I am confident that Leslie will be an asset to any organization, and I recommend her without reservation for future professional opportunities.

I wish her every success in her future endeavors.

Sincerely,

Dani Paleu
Chief Operating Officer
Booming Games (Malta) Limited
